### ABOUT ME

My professional goal is to be part of a great team and demonstrate both my technical and soft skills. I aim to assist my team and contribute to collaborative work, enabling me, to grow professionally. I intend to leverage my web design skills and problem-solving logic.

### EXPERIENCE

**Dic 2023**  
**Now**

Dreamer Paintings is an exploring and showcasing website for the paintings of a talented friend. Mockup with Figma, development with React, Redux and Sass. Deployment with Vercel.

**Dic 2018**  
**Feb 2022**

I was in charge of a family-owned store, taking on diverse responsibilities such as customer service, cashier duties, inventory management, among others.

### EDUCATION

**2023**  
Plataforma 5

I earned the title of Full Stack Developer, where I learned a great deal about the world of web development and had the opportunity to work with a lot of different people on different projects.

**2022**  
UTN

I pursued the career of University Technician in Programming, successfully completing the first semester and acquiring a wide range of professional skills.

**2021**  
Free Code Camp

I started my programming journey thanks to freeCodeCamp. I received my Responsive Web Design certification.

### PROJECTS

#### Carbon Copy (Plataforma 5 Capsula)

Web app with the ability to edit and export code in PNG format. It detects multiple languages, allows theme selection, saving favorites, user registration and updates.

#### House of Dev (Plataforma 5 Final Project)

Real Estate website features: Search by city, neighborhood, rooms, set favorites, register as a user, schedule appointments and more.

#### My Movie Crib (Plataforma 5 Indiv. Project )

Website that allows you to search among the most popular movies, save favorites, register as a user, and search by name.
